

# THANK YOU

for downloading!

## TERMS OF USE

### YOU MAY

- Use to decorate your classroom
- Share **photos** of this resource being utilized in your classroom.
- Print this file at any printing shop or printing service.

### YOU MAY NOT

- Reproduce this product and claim it as your own
- Redistribute this resource in digital or paper form to your colleagues
- Copy or change this resource to share with other friends
- Share this resource via Google Drive or any other sharing site

Thank you for purchasing this resource and allowing me to be a small part of your teaching journey. I hope you find this resource to be helpful in creating a wonderful learning environment! If you choose to share pictures of you using this product, I would LOVE a tag on Instagram, @steppintoelementary. ☺

# Frequently Asked Questions

## Can I share your resources with other teachers?

No, this product is for a single classroom use only. Meaning you are welcome to print as many times as you'd like for yourself, but you cannot print copies for other teachers without purchasing another license. You are welcome to send them the link to the resource in my Etsy store! 😊

## Do you do custom orders currently?

Depending on the resource, I may be interested in doing a custom order. I do not always have time to do them, so please contact me at [steppintoelementary@gmail.com](mailto:steppintoelementary@gmail.com) and I will let you know if it is something I can do! 😊

## What do I do if a black box is printing around images?

There are two fixes to this issue: convert the file to a PNG or Download Adobe (if you don't already have it) and print from there! Reach out to me (via Etsy message or email – [steppintoelementary@gmail.com](mailto:steppintoelementary@gmail.com)) if you are still experiencing issues!

## What do I do if the pattern/image isn't printing correctly?

Export the file or specific page as a PNG, and the pattern will print. Sometimes the printer doesn't recognize the pattern as a picture and will "forget" to print the pattern! File > Export > PNG 😊

# Downloading Resources

\*\*If you are experiencing any downloading/printing issues, please message me on Etsy or via email ([steppintoelementary@gmail.com](mailto:steppintoelementary@gmail.com)) before leaving a negative review! I will ALWAYS try my best to resolve any issues for you, as I take pride in ensuring all of my customers (aka BFF's) are pleased with their purchase! 😊

## Step 1: Opening a ZIP file

Simply double-click on the ZIP file, and it will open a separate folder with the same name as the ZIP file. You will access each individual resource under this folder!

## Step 2: Download programs, if needed

To utilize text-editable files, you will need access to Microsoft PowerPoint. If you are using a different program other than PowerPoint, the embedded font from the resource may not transfer over. You can get a free 1-month trial of PowerPoint [here](#).

The non-editable files (PDF files) work best using Adobe Reader. You can download it for FREE [here](#). If you are using Preview, it may work, but sometimes can interfere with printing!

## Step 3: Utilizing text-editable files

When using the text-editable files (PowerPoint files), you can edit the font to translate wording to any language you need. You can also change the font to your desired font. The clipart/designs are NOT editable, only the text, to follow copyright rules!

# Printing Resources

## Printing resources at home

If you are printing your resources at home, it can save you money. However, you want to ensure that you are using a quality printer that will print the colors/patterns correctly!

I recommend using HP printers and getting an Instant Ink subscription (pay a small monthly fee and they will send you ink before you run out!). I have my favorite printer & paper linked at the bottom of this document in the “Shopping Online” page!

## Printing resources at a print shop

If you do not have access to a colored printer at home or at school, you can go to a print shop, such as UPS Store, Office Max, Staples, etc., and they will be able to print the resources for you. The pricing of these stores vary, so you will need to contact your specific store for pricing.

To save the most money & time, be sure to write down the specific resource name and page numbers to avoid printing unwanted pages. I include MANY options for each product, so you do not need to print every single page in the resource!
